The old Mitte power station, an imposing industrial heritage building from the 18th century, just minutes from the Zwinger palace, is to be Dresden's new cultural powerhouse. With two theatres, a museum of energy, workplaces, this will mainly be a gathering point for public and private transport links.

Kraftwerk Mitte – a new magnet for Dresden

The old Mitte power station, an imposing industrial heritage building from the 18th century, just minutes from the Zwinger palace, is to be Dresden's new cultural powerhouse. With two theatres, a museum of energy, workplaces, this will mainly be a gathering point for public and private transport links. Dresden will have invested some 120 million euros in the building and grounds on this area, is to be Dresden's new cultural powerhouse.

By the summer of 2018, an exclusive residential complex to be built right by Dresden’s Zwenker Palace, which is 630 m² in size, is to be developed with seven-storey complexes containing a total of 140 homes, roughly 1,600 m² of retail space and an underground car park for 147 cars. As well as standard homes, there will also be some apartments which are smaller or adapted to suit the elderly. Tenants will benefit from the central location and extremely good public and private transport links.

Military heritage building from the 19th century adapted to suit the elderly. Tenants will benefit from the central location and extremely good public and private transport links.
